

Requirements Traceability Matrix Instructions

The Requirements Traceability Matrix (RTM) is used to document and track the project requirements from the proposal through the CMS Certification process.. The Contractor is responsible for maintaining the set of Baseline Requirements directly related to the configuration of the MES components. Additions, modifications, and deletions to these requirements post contract award shall be added and modified timely, with DMAS approval and a current version of the matrix shall be maintained at all times. The Contractor shall provide an initial RTM as part of its proposal per the instructions below. The RTM will be maintained in Excel format until or unless DMAS approves an alternate format.

Column	Instructions
Requirement ID	The unique identifier for the requirement as assigned by DMAS. This column shall not be modified by the Bidder.
Requirement	The statement of the requirement to which the Bidder must respond. This column shall not be modified by the Bidder.
Compliant?	The Bidder shall indicate "Y" (Yes) or "N" (No) as to whether their solution is compliant with the requirement.
Availability	The Contractor shall indicate one of the following:
	A = Functionality is currently operational
	B = Functionality is planned
	C = Functionality is not currently planned
Date	For Availability code "B" bidder shall provide the planned availability date
Proposal Mapping	The Bidder shall provide cross-reference to the location(s) of where compliance with each requirement is described in their proposal.

Technology Standards Requirements					
Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
EDWS-TECH-STND-001	All the artifacts developed as part of the proposed Solution shall be compliant with the CMS and HIPAA standards and requirements.				
EDWS-TECH-STND-002	The Solution shall use rules based, table driven modular, and reusable components.				
EDWS-TECH-STND-003	The Solution shall facilitate online, browser based web capabilities with no client component download(s) for all authorized end users including, but not limited to providers and members.				
EDWS-TECH-STND-004	The Solution shall support functionality to interface with multiple entities outside the MES for exchange of information.				
EDWS-TECH-STND-005	The Solution shall comply with all current and future HIPAA standard Transactions and Code Sets (TCS) in place or mandated by the Department and CMS.				
EDWS-TECH-STND-006	The Solution shall implement standard policies and practices to ensure the security and integrity of the information to be exchanged.				
EDWS-TECH-STND-007	The Solution shall provide notification to the ISS contractor of all changes to application program interface (API) on a timely basis.				
EDWS-TECH-STND-008	The Solution shall provide standard and ad hoc reporting capabilities for all modules of the proposed solution which are accessed by Department end users and other stakeholders.

Technology Standards Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
EDWS-TECH-STND-009	The Solution shall meet the Federal reporting requirements and performance standards as defined by CMS and the CMS certification checklists.				
EDWS-TECH-STND-010	The Solution shall implement and support a reporting repository with Web based access by authorized end users, including the ability to extract data to be used with desktop applications.				
EDWS-TECH-STND-011	The Solution shall provide interoperability between the modules of the proposed solution and Department imaging and document management systems. All Department documents and images on any media type received or disseminated shall be accessible, stored, and indexed on the Enterprise Content Management system.				
EDWS-TECH-STND-012	The Solution shall allow users to select among several format types (e.g., PDF, Microsoft Excel, Microsoft Word) for any outputs produced. The output media types shall be role based or by individual end user(s).				
EDWS-TECH-STND-013	The Solution shall implement relevant standards including, but not limited to NIEM, CAQH-CORE, HL7, and HIPAA for data interchange.

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
EDWS-TECH-STND-014	The Solution shall provide single sign-on (SSO) capability using Commonwealth standards for login and authentication. The Contractor's system shall include an end user authentication process that permits the end user to enter one (1) name and password to access multiple applications. This process authenticates the user for those applications they have access rights to and eliminates the need for further prompts when switching between applications during a session.				
EDWS-TECH-STND-015	The Solution shall process all inbound and outbound files at a frequency as defined by the Department.				
EDWS-TECH-STND-016	The Solution shall support and monitor the processing of all transaction files and notify the Department of all transactions which have not been processed successfully.				
EDWS-TECH-STND-017	The Solution shall accept and apply interface data accurately 100% of the time.				
EDWS-TECH-STND-018	The Solution shall reconcile errors identified during the processing of any transaction file and reprocess partner transactions within the agreed upon SLA.				
EDWS-TECH-STND-019	The Solution shall comply with Commonwealth and Federal records management policies and retention schedules.

Rules Engine Requirements					
Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
EDWS-RULE-EGN-001	The Contractor's Rules Engine shall meet MITA 3.0 standards by using COTS Business Rules Engine products using BPMN and BPEL methodologies.				
EDWS-RULE-EGN-002	The Contractor's Rules Engine shall allow integration with Identity Access Management products for several elevated user levels for business rules approvals.				
EDWS-RULE-EGN-003	The Contractor's provided workflow shall automate details for any rules creation/modification/deletion and scheduled auto deployment shall be explained.				
EDWS-RULE-EGN-004	The Contractor's Rules Engine shall provide a testing environment with dashboard drill downs using past production data to show how functionality/end result will change by the rule changes. This can be displayed in the dashboard by a graphical and columnar view for easy impact assessment by the business user.				
EDWS-RULE-EGN-005	The Contractor shall provide a Rules Engine Business Dictionary which includes data elements, definition, data size, meaning, description and its usage.				
EDWS-RULE-EGN-006	The Contractor's Rules Engine shall allow changes to be made to the valid values without bringing down the rules engine.				
EDWS-RULE-EGN-007	The Contractor's Rules Engine shall have tracking mechanisms to identify which rules are executed for the particular transactions.				
EDWS-RULE-EGN-008	The Contractor's Rules Engine shall be able to produce a report on rules passed or failed for all transactions.

Rules Engine Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
EDWS-RULE-EGN-009	The Contractor's Rules Engine shall send alerts to the appropriate resource if there is any issue in the rules engine.				
EDWS-RULE-EGN-010	The Contractor's Rules Engine shall allow logging to be turned ON or OFF.				
EDWS-RULE-EGN-011	The Contractor's Rules Engine shall provide a debugging tool to debug the rules execution.				
EDWS-RULE-EGN-012	The Contractor's Rules Engine shall allow rules to run sequentially and in parallel.				
EDWS-RULE-EGN-013	The Contractor's Rules Engine shall allow Individual rules testing features available.				
EDWS-RULE-EGN-014	The Contractor's Rules Engine shall include test data creation tools.				
EDWS-RULE-EGN-015	The Contractor's Rules Engine shall allow users to map JSON or XML documents as input data elements.				
EDWS-RULE-EGN-016	The Contractor's Rules Engine shall be easily accessed through Java or web services.				
EDWS-RULE-EGN-017	The Contractor's Rules Engine shall process high volume transactions and shall be scalable.				
EDWS-RULE-EGN-018	The Contractor's Rules Engine shall be able to support NoSQL or MongoDB.				
EDWS-RULE-EGN-019	Rules Editor shall allow the subject matter experts or technical resource to write the rules in the natural language.				
EDWS-RULE-EGN-020	The Contractor shall supply a dashboard to monitor the rules execution and its performance and statistics.

Hardware Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
EDWS-FR-HDW-001	<p>The Contractor shall provide two cost proposals relative to the hosting of the EDWS appliance/hardware.</p> <p>Option #1: The first option is that the hardware will be hosted by VITA.</p> <p>Option #2: The second option is the hosting hardware will be determined by the Contractor. The Contractor will provide details of the solution and the location of data.</p> <p>DMAS's preference is to host hardware in VITA and receive support from the Contractor for set up. The intent is to co-locate with SAS servers at VITA to avoid latency issues. In both options, the Contractor will ensure that the solution would provide equal or better performance utilizing the SAS analytics platform that is hosted in VITA (CESC) Chesterfield, VA.</p> <p>The Contractor is required to comply with VITA IT and Security standards and meet DMAS approved SLAs. Please refer 3.b.7 Service Requirements section for additional information.</p>				
EDWS-FR-HDW-002	<p>The Contractor shall provide a solution with simplicity and ease of development and deployment, with minimum/No assembly required, easy integration of hardware, software and storage with shorter deployment cycles and faster time to value.</p>				
EDWS-FR-HDW-003	<p>The Contractor shall provide recommended approach to deliver high performance out of the box hardware solution.</p> <p>DMAS prefers an appliance with minimum/no indexing or tuning capabilities.</p>				
EDWS-FR-HDW-004	<p>The Solution shall integrate with leading ETL, EDWS and analytic applications through standard ODBC, JDBC and OLE DB interfaces.</p>

Hardware Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
EDWS-FR-HDW-005	The Contractor shall provide a pre-integrated and tested server, storage, database and built-in analytics capabilities designed, integrated and tuned for high performance analytics.				
EDWS-FR-HDW-006	The Contractor shall provide an asymmetric, massively parallel processing architecture that supports large volumes of data.				
EDWS-FR-HDW-007	The Contractor shall provide in-database analytics functions which can support analysis where the data resides to eliminate costly data movement and yielding high performance.				
EDWS-FR-HDW-008	The Contractor shall provide in-database geospatial analytics which correlate transactional information to a location, enhancing applications such as fraud detection and population healthcare analytics.				
EDWS-FR-HDW-009	The Contractor shall provide in-database SAS execution to improve speed and reliability.				
EDWS-FR-HDW-010	The Contractor shall provide the ability to manage and monitoring performance and activity.				
EDWS-FR-HDW-011	The Contractor shall provide ability to manage security credentials and policies for system and database users with a three dimensional security model.				
EDWS-FR-HDW-012	The Contractor shall provide ability to configure and authenticate users in one of two ways: <ul style="list-style-type: none"> ▪ A Local Authentication ▪ An Active Directory Authentication (ADA) 				
EDWS-FR-HDW-013	The Contractor shall provide minimum/ no disruption in service when increasing capacity through modification of hardware configuration.

Training Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
EDWS-SR-TRN-001	The Contractor shall work with DMAS to analyze, define, and tailor training to each specific user role and group.				
EDWS-SR-TRN-002	The Contractor shall submit to DMAS for approval, all training plans which address the training needs for each user group and role.				
EDWS-SR-TRN-003	The Contractor shall provide hands on training to the DMAS user community prior to each EDWS release.				
EDWS-SR-TRN-004	The Contractor shall conduct initial onsite training for each EDWS release in Richmond Virginia to train essential Department staff that will use the EDWS and the newly developed reports.				
EDWS-SR-TRN-005	The Contractor shall develop a multi-tier training curriculum to educate Department staff on the use of the EDWS and the use of the reporting tool, using Department defined user proficiency levels from Basic to Super.				
EDWS-SR-TRN-006	The Contractor shall provide a computer-based training (CBT) course for each EDWS release for new employees and existing staff.				
EDWS-SR-TRN-007	The Contractor shall procure a training facility and related resources at no cost to the State, if Commonwealth facilities are not available.				
EDWS-SR-TRN-008	The Contractor shall be required to provide a fully qualified, expert user of the EDWS and reporting tool, for Department staff training.				
EDWS-SR-TRN-009	If the Contractor sponsors training courses, symposiums, or users' conferences, the registration fee shall be waived for the attendance of essential DMAS staff. These sponsored training(s) will be identified in the training plan.
